June 3, 2021

Dear Coach Clayton:

We recently wrapped up another spectacular spring sports season at the Utah High School Activities Association. Congratulations on your school's outstanding achievement: **2021 Division A State Girls' Lacrosse Champions**.

I admire your determination, hard work and dedication in directing your team to this outstanding accomplishment. In winning the title, you have reached a milestone in your career that only a small percentage of coaches ever meet. I am certain the joys and thrills of this feat are well deserved and are gratifying to you. For some coaches it comes only once in a lifetime, others are rewarded more; however, I am convinced that each time it happens it is based on a consummate team effort that cannot be matched by any other sports experience.

Former NBA player and U.S. Senator Bill Bradley said it best, "No collection of individuals, no matter how good, can be successful unless they form a team." I also would like to congratulate your assistant coaches and your student athletes for their hard work and dedication throughout the season. Oftentimes, only another coach can truly understand and appreciate all the hours of planning, organization and practice that are sacrificed by you, your coaches and your team during the course of a season.

Thank you for modeling sportsmanship and citizenship through positive learning laboratories where practical life lessons are taught. Thank you for creating education-based activities for your student athletes through promoting the development of character and ensuring the teaching of positive values, philosophies and principles of educational value that will last a lifetime.

Congratulations, again, to everyone at **Park City High School** for reaching the top of your division and earning the exclusive honor of being called the **2021 Division A State Girls' Lacrosse Champions**.

Sincerely,

A handwritten signature in black ink, appearing to be "Robert C. Cuff".
